

# Connecting Talent, Bridging Opportunities: Empowering York County's Workforce for Tomorrow

Employer Provided Innovation Challenges (EPIC) provides employers as well as education and workforce development partners with a standardized platform to scale and credential employer-sponsored challenges that support career awareness, exploration, and development.

### **Partnership**

Business's and education institutions provide learners access to authentic, employer-sponsored project-based learning.

### Challenge

Two teams of 5 (high school, undergraduate, and/or graduate students) work together to propose a solution using Riipen over a 6-8 week period.

### Durable Skills

Allows students to problem solve, think critically, communicate, collaborate, and have ethical reasoning.

## Credential

Issued by Credly, a digital badge is earned for the completion of an EPIC Challenge. The badge also denotes the skills obtained through the challenge.

Through these strategic actions, the York County Regional Chamber is committed to strengthening the workforce and supporting local businesses in navigating the evolving employment landscape.
